G4 Environmental Awarded California Forest Engineering Road Maintenance (FERM) BPA # 12363N23A4230 Region 5 - California

Washington, D.C., February 22, 2023 - G4 Environmental, LLC (G4) was awarded the California Forest Engineering Road Maintenance (FERM) Blanket Purchase Agreement (BPA) in response to solicitation number 12363N22Q4035. The purpose of this award is to allow for Call Orders to be placed against the BPA to facilitate Road Maintenance service work and Road Construction work.

Types of road maintenance service work are generally confined to the limits of the existing traveled way and adjacent ditches, shoulders, and cut/fill slopes. Work may also take place under or adjacent to the traveled way for resource protection, road stabilization, or to maintain traffic flow. Typical work may include, but is not limited to, sign maintenance, bridge maintenance, rock crushing and stockpiling, dust abatement, major and minor flood repair and water diversion, ditch cleaning, vegetation management, Burned Area Emergency Response (BAER) (BAR), Emergency Relief for Federally Owned Roads (ERFO), culvert inlet/outlet cleaning, and Fire Suppression Rehabilitation.

The scope of the BPA covers Federal, and local agency lands within 150 miles of the boundaries of the National Forests and National Grasslands: Angeles, Cleveland, Eldorado, Humboldt-Toiyabe, Inyo, Klamath, Lake Tahoe Basin Management Unit, Lassen, Los Padres, Mendocino, Modoc, Plumas, Rogue River-Siskiyou, San Bernardino, Sequoia, Shasta-Trinity, Sierra, Six Rivers, Stanislaus, and Tahoe National Forests and Butte Valley National Grassland. Future Call Orders for specific projects will be emailed to only the Contractors awarded under this BPA.

Patrick Gayner, Chief Operations Officer, said, "The BPA is an excellent contracting vehicle for the USDA Forest Service (FS) to relieve the backlog of deferred maintenance on National Forest System Infrastructure in Region 5. Besides providing public access to our National Forests, rural communities depend on the Forest Service Road Network to get to schools, stores, hospitals, and homes. In addition, they are vital for firefighters and emergency responders' community protection and rescue efforts. G4 looks forward to assisting the FS in improving and repairing this critical road network. "

G4 is a Woman Owned Small Business (WOSB) and California Licensed Timber Operator (LTO) # A012213 with offices in Loyalton, California, and Woodland Park, Colorado. G4 is an environmental contracting, consulting, and management firm focusing on sustainable restoration solutions for our Forests, Oceans, Air & Rivers (FOAR).
